## VALLEY OF VIRGINIA

Work Starts Soon on Gas Pipe Line to Washington.

**NEW COPPER VEIN FOUND** 

Important Discovery Made at the Mines at Front Royal.

WATER FOR HARRISONBURG

Five-Million-Gallon Storage Reservoir Is Planned-Mrs. Gentry Arranged for Own Funeral.

WINCHESTER, Va., October 12, 1912. One of the engineers of the corps which gas pipe line from the West Virginia gas

ward, passing through portions of Fredcounties in Virginia, Berkeley and Jefferson counties of West Virginia, and through Montgomery county, Md., after which the line is to be laid through the The line already has been completed

as far as Cumberland, Md., and another force of men will be engaged in the work of laying the pipe between that city and the northwestern portion of Frederick

#### Railroad Is Inspected. The annual inspection of the main line

and three branches of the Cumberland Valley railroad was made this week by Vice President and General Superintendent M. C. Kennedy, who was accomby a party of about 150 other general and division officials, together with several representatives of the Pennland Valley road is controlled. Early next week the company will distribute up-

now being built in Amherst between Lynchburg and Natural Bridge. the valley turnpike, which extends from Winchester to Staunton. It is certain that the southern routes by way of Roanoke from the Natural Bridge will continue to be used extensively, but the new road by way of Lynchburg is a shorter Many motorists who have arrived here during the past week from the south came over the Lynchburg road and expressed themselves as being well pleased

A new vein of copper has been found at the mines at Front Royal. The new ein, which is on what is known as the 25-foot level, has been explored for sixty feet with excellent results. The vein increases in thickness as the work progresses. Another 150-horsepower boiler has been installed, thus giving ample power for the operation of the machinery.

#### Abandon Hope of Parole.

Relatives and neighbors in the eastern the Atlanta penitentiary for 600 from the registered mail, now have no but his aged mother, who started the petition, has not given up the idea. The nspectors, who worked hard to convict Huffman, have indicated that they do not intend to do anything in his behalf. The lull which has characterized the local apple market for several years appears to be giving way to considerable activity. During the past week red apples of a number of the largest orchards in Frederick county have been sold, principally to buyers from the south. No. 1 York Imperial and Ben Davis apples have been sold here for \$1.74 and \$2 a barrel delivered on the cars, while some smaller lots, but of finer quality, have brought \$2.25 a barrel. There has been no large sale of pippins and other fancy brands in this section, although a Warren couny grower sold all his Albemarle pippins for \$2.75 a barrel, which is much lower than usual. Many of the leading pippin growers of the Winchester section are placing their fruit in cold storage. Commandery, No. 12, Knights Templar, was held publicly Thursday evening on the City Hall plaza by Past Grand Commander Henry M. Boykin of Richmond, following a street parade. A banquet was held in the Masonic Temple immediately Commandery, of which W. E. Cooper i ginia, it having been instituted in 1813 by Philadelphia Templars as "Winchester Encampment, No. 1." The Grand Commandery of Virginia was instituted about

In order to provide more water for the town of Harrisonburg and avoid water famines, which for a number of years have been of much inconvenience, the authorities are considering plans for the erection of a storage reservoir which will have a capacity of 5,000,000 gallons of water. The present storage reservoir holds only 800,000 gallons

#### Given Tax Returns.

When the grand jury of the Frederick county circuit court met this week Judge T. W. Harrison presented the juryproperty and income tax returns from every city and county in the state, and stated that the auditor of public accounts wished the juries to consider the matter carefully and report to the court the names of persons who may have sought to evade the provisions of the law. The jury, it is said, was of the opinion that the statistics and other data were entirely too voluminous, and after glancing at the totals in the books of the commissioners of the revenue the jury lottesville spoke at Middletown, and J. she stated, that there would be no in- started, it is thought, from a spark Normant Powe'l of Wythe, one of the electors-at-large, spoke at Brucetown.
